Now faith is confidence in what we hope for and assurance about what we do not see.

Hebrew 11.1 (NIV)

Newsletter GOOD NEWS !!

Health Care

Health is a prerequisite for ensuring the quality of life of all human being and, therefore, health services must be provided effectively and efficiently. Health as such, is a human right, so we are obliged to promote it, respect it, protect it and guarantee it; Therefore, any action, in that sense, must be more than welcome.

In the San Lucas Clinic, 205 detections were carried out: Among them are: timely detection of cervical cancer, detection of breast cancer, detection of diabetes, detection of hypertension, nutritional detection, detection of flat feet, detection of visual acuity and Detection of auditory disorder.

Nutrition Education and Recovery

One of our tasks to improve the life of our children in the dining room is to orient them in aspects relevant to their well-being, and one of the themes we have touched on is the Civil Protection both in CANERI and in their homes. We talked about the importance of the drills and what steps to follow in each case.

We have made adjustments to attend with more opportunity the spiritual area of the children of the dining room, for which devotions have been initiated on a daily basis with the support of the teachers of the School Reinforcement Workshop. This activity has the purpose of encouraging in children a daily communication with Jesus and fostering the spiritual values that the Bible mentions in order to strengthen their spiritual life.

We thank God once more for our donor friends since through their donations we have been able to serve, in this bimester, 1679 breakfasts and 1332 hot meals for our children in CANERI and in the community of Mahuixtlán.

AREA OF EDUCATION AND TRAINING

In this month, the people who trained in the Cutting and Confectioning Workshop produced a whole series of finishes such as embroidery of chaquira on lace, designs with rhinestones, elaboration of bouquets for fifteen year olds and bridal. All this for the closing of the course "Haute couture in design of wedding dresses, XV years, cocktail and party" that took place on October 28. This event was organized by the Teacer María de los Ángeles Lozada, and Dr. José Luis Guerrero Salazar, Executive Director of VAM. As distinguished guests, the Director of ICATVER Lic. Victor Hugo Moctezuma Lobato, President of the Rotary Club Manantiales, Lic. Guadalupe Leija Martínez; as well as members of the Rotary Club, and other personalities who officially enhanced the event.

There was also a fashion show where each dress modeled belonged to clients of the students who had been asked to make the design and preparation of these dresses. This was a wonderful experience because these mothers have learned to work at home to improve their economic situation and therefore that of our children, their children.

SCHOOL OF UNIVERSAL VALUES

We thank God that we have been able to work better with the group of adolescents. This group for VAM is important because it speaks of a generation with which we have worked since they were of 4 years of age. To realize that they continue persevering and that now 2 of them are about to move from adolescents to being good young adults, it is cause for great joy, because it reminds us that if we evangelize a child well, we will conquer the life of a teenager, a young man, an adult and therefore a family.

In this feeling is that we continue to work and give the best for the good of them. The Children Bible School group has grown considerably so we also want to thank God because to this point He has helped and sought in this area so significant for VAM.

FROM VAM TO THE WORLD

We are grateful to God for the life of the adolescent Carlos Ortiz García who has been a beneficiary of the CANERI dining room since a very young age. A few weeks ago he was in a very serious case in the Hospital of Medical Specialties CE-MEV presenting a severe pain in the stomach, getting to the degree of having to intervene due to his intestine.

Currently he returned to the dining room where he is being given again the services required for his care and recovery. Now he also supports us in some activities in VAM. May God continue to bless the life of Carlos!!
