CHURCH REMODEL: IMPORTANT INFORMATION

Over the next several months during our church remodel, there will be lots of changes occurring in our church building. To make this transition time a little more manageable, we've put together a timeline to inform you about some of the major disruptions, closures, re-locations, etc. All this is an attempt to give you as much information as we can so that the chaos can be a bit more contained. Please keep in mind that we will be worshiping in a construction zone, so please be patient with the dust and all that comes with a project of this scope. We encourage everyone to adopt an attitude of flexibility, as some things may change in the course of the project – we know that things may not always go as planned, and adjustments may need to be made in the plan and schedule. It's important to keep in mind the end goal of the project: that God will be glorified through our efforts.
